

SWETHA ANAND

Product Designer | UX Designer | UI/UX Designer

Minneapolis–Saint Paul, MN | anand172@umn.edu | (763) 328-7342 | LinkedIn | Portfolio

SUMMARY

Product and UX designer with 5+ years of experience designing digital products across mobile applications, gaming, audio platforms, healthcare, and client-based services. Background in UI/UX, interaction design, user research, prototyping, visual design, and design strategy. Experienced working directly with clients, founders, developers, marketing teams, healthcare professionals, and interdisciplinary stakeholders. Co-founded a service-based startup, established design processes, and grew from a solo designer into a design team lead. Currently pursuing a Ph.D. in Graphic Design with research focused on human-centered design and healthcare.

CORE SKILLS

Product & UX: UX Design • Product Design • UI Design • Interaction Design • User-Centered Design • Information Architecture • User Flows • Wireframing • Prototyping • Usability Testing

Research: User Interviews • UX Research • Stakeholder Research • Qualitative Research • Design Thinking

Design: Visual Design • Mobile App Design • Web Design • Digital Product Design • Information Design

Collaboration: Client Collaboration • Cross-functional Collaboration • Design Leadership • Team Mentoring • Stakeholder Management

RESEARCH EXPERIENCE

Product Designer

Headfone | Bangalore, India | 2021–2022

- Designed and redesigned UX/UI experiences for a mobile audio-based application.
- Collaborated with co-founders, marketing, and content teams throughout product development.
- Designed podcast banners and visual assets supporting digital content and product experiences.
- Created marketing materials, including pamphlets and digital and print assets.
- Contributed to visual consistency across product and marketing touchpoints.

Senior UI/UX Designer

Gameberry Labs | Bangalore, India | 2019–2021

- Redesigned the UX/UI experience of the Ludo mobile game.
- Designed new game features, interactions, and user flows.
- Created icons and visual assets for in-game learning and instructional experiences.
- Collaborated closely with developers, co-founders, and marketing teams.
- Conducted exploratory user interviews to better understand player needs.

UX Designer

MSys | Bangalore, India | 2017

- Transitioned into a UX Designer role following the acquisition of a startup I co-founded.
- Contributed to web and mobile application design within a larger service-based organization.
- Collaborated with designers, developers, project teams, and stakeholders.
- Adapted design processes and collaboration practices from a startup environment to a larger organization.

Co-Founder & UI/UX Designer

DigiFutura | Bangalore, India | 2015–2017

- Co-founded a service-based design startup and led UI/UX design across client projects.
- Established design processes and workflows as the company grew.
- Worked directly with clients to understand business goals, user needs, and project requirements.
- Led projects from initial requirements through wireframing, prototyping, UI design, and delivery.
- Started as the primary designer and later helped build and guide a small design team.
- Provided design direction, feedback, and mentorship to team members.
- Collaborated with clients, developers, project managers, and other stakeholders.

Junior Designer

ProvenLogic | Bangalore, India | 2014–2015

- Developed foundational UI/UX and visual design skills while working under senior designers.
- Contributed to client projects and translated requirements into design solutions.
- Supported an early location-based design project.

SELECTED RESEARCH / HEALTHCARE DESIGN EXPERIENCE

Graduate Research Assistant

University of Minnesota, College of Design | 2023–Present

Applied user-centered design and design thinking to healthcare, education, and interdisciplinary projects.

- Conducted interviews, workshops, stakeholder research, qualitative analysis, and prototyping.
- Contributed to the UX design and testing of a medical student decision-making tool.
- Conducted wayfinding research and contributed to an AI chatbot concept for a medical campus.
- Designed a prospective-student website using Google Sites.
