PRODUCT DESIGNER | UX DESIGNER | HUMAN-CENTERED DESIGN

Minneapolis–Saint Paul, MN | [anand172@umn.edu](mailto:anand172@umn.edu) | (763) 328-7342 | [LinkedIn](#) | [Portfolio](#)

## SUMMARY

Product Designer and UX Designer with experience designing digital products across mobile applications, gaming, audio platforms, and client-based services. Experienced across the end-to-end design process, including user research, interaction design, information architecture, user flows, wireframing, prototyping, visual design, and usability testing. Have worked closely with founders, clients, developers, marketing teams, and interdisciplinary stakeholders to translate user and business needs into useful, usable product experiences. Currently pursuing a Ph.D. in Graphic Design at the University of Minnesota, bringing additional expertise in human-centered design research, qualitative methods, and complex problem solving.

## CORE SKILLS

Product & UX: Product Design • UX Design • UI Design • Interaction Design • User Centered Design • Information Architecture • User Flows • Wireframing • Prototyping • Usability Testing

Research: User Interviews • UX Research • Stakeholder Research • Qualitative Research • Design Thinking

Design: Visual Design • Mobile App Design • Web Design • Digital Product Design • Information Design

Collaboration: Cross-functional Collaboration • Client Collaboration • Stakeholder Engagement • Design Leadership • Team Mentoring

## PROFESSIONAL EXPERIENCE

### Product Designer

Headfone | Bangalore, India | 2021–2022

- Designed and refined UX/UI experiences for a web-based audio storytelling platform.
- Collaborated with co-founders, marketing, and content teams throughout product development.

- Designed visual and digital experiences supporting audio and podcast content.
- Contributed to a consistent user experience across product and digital content touchpoints.

## **Senior UI/UX Designer**

*Gameberry Labs | Bangalore, India | 2019–2021*

- Redesigned the UX/UI experience of a casual mobile game across core gameplay and player experiences.
- Designed new features, interactions, and user flows for a growing mobile game product.
- Used A/B testing to evaluate design alternatives and understand user needs and behavior in context.
- Created icons and visual assets for in-game learning and instructional experiences.
- Collaborated closely with developers, co-founders, and marketing teams throughout product development.

## **UX Designer**

*MSys | Bangalore, India | 2017*

- Transitioned into a UX Designer role following the acquisition of a startup I co-founded.
- Contributed to web and mobile application design, translating project requirements into user-centered design solutions.
- Collaborated with designers, developers, project teams, and stakeholders within a larger service-based organization.

## **Co-Founder & UI/UX Designer**

*DigiFutura | Bangalore, India | 2015–2017*

- Co-founded a service-based design startup and led UI/UX design across client projects from requirements through delivery.
- Worked directly with clients to understand business goals, user needs, and project requirements, translating them into design solutions.
- Led end-to-end design including user flows, wireframes, prototypes, and UI design.
- Led projects from initial requirements through wireframing, prototyping, UI design, and delivery.
- Established design processes and workflows as the company grew, and later helped guide and mentor a small design team.
- Collaborated with clients, developers, project managers, and other

stakeholders throughout product development.

## **Junior Designer**

*ProvenLogic | Bangalore, India | 2014–2015*

- Developed foundational UI/UX and visual design skills while contributing to client projects.
- Translated project requirements into design solutions and supported early-stage location-based design work.

## **SELECTED HUMAN-CENTERED DESIGN EXPERIENCE**

### **University of Minnesota, College of Design — Graduate Research**

*Assistant University of Minnesota, College of Design | 2023–Present*

- Applied human-centered design and design thinking to healthcare, education, and interdisciplinary projects.
- Conducted interviews, stakeholder conversations, workshops, site visits, and qualitative analysis to identify user needs and design opportunities.
- Conducted UX research for a medical student decision-making tool, including site visits, interviews, synthesis, and identification of UX requirements and design opportunities.
- Conducted wayfinding research and contributed to digital experience concepts for a medical campus.
- Designed and developed a prospective-student website, organizing complex information into a clear digital experience.

## **EDUCATION**

### **Ph.D. in Design — Graphic Design**

University of Minnesota, College of Design | 2022–Present

### **MDes — Graphic Design**

University of Illinois Chicago, School of Design | 2019

### **B.E. — Electronics & Communication Engineering**

Visvesvaraya Technological University | 2008

## **ADDITIONAL EXPERIENCE**

### **UX/UI Design Mentor — Springboard | 2018–2022**

One-on-one UX mentorship, design critique, project guidance, and design thinking instruction.

## **TOOLS**

Figma, Illustrator, Photoshop, InDesign, Google Sites, HTML/CSS, JavaScript, etc.
